- GWU School of Medicine and Health Sciences DPT Scholarship recipient August 2020, August 2021
- Special Recognition Award in Advocacy May 2023
- ACAPT National Honor Society Inductee May 2023

James Madison University

Harrisonburg, VA

B.S. Kinesiology, Concentration in Exercise Science

August 2016 – August 2020

Summa Cum Laude

- “Outstanding Major Award in Kinesiology” recipient May 2020
- JMU Department of Kinesiology “Odyssey Honor Society” inductee May 2020

LICENSURE/CERTIFICATION

Board Certified and Licensed New York State Physical Therapist

June 2023

- License Number: 050557-01

Board Certified and Licensed Massachusetts Physical Therapist

May 2025

- License Number: PTL88453

CPR Certified by the American Heart Association for BLS

November 2024

EMPLOYMENT HISTORY

Onondaga Physical Therapy

Cicero, NY

Outpatient Orthopedic Physical Therapist

August 2023 – June, 2025

- Independent evaluation, treatment, and discharge of a wide variety of patients with musculoskeletal and neurological conditions
- Provision of patient and family education that promotes safety and optimizes function in both the home and in the community
- Implementation of ethical documentation and billing procedures following each session

Boston Medical Center

Boston, MA

Outpatient Orthopedic Physical Therapist

June 2025 – Present

- Independent evaluation, treatment, and discharge of an extremely diverse group of patients with musculoskeletal and neurological conditions in a large academic medical center
- Generating creative solutions for many patients who struggle with significant psychological, environmental, financial, and social barriers that may impact their plan of care
- Participation in consistent team-based collaboration to maximize patient outcomes, professional growth, and clinic operations

Boston Medical Center – Roseen Lab

Boston, MA

Research Assistant and Mentee

June 2026 – Present

- Recruitment and screening of participants for research study via various outreach strategies, primarily phone calls and EPIC messaging
- Collection of participant data and entry into RedCap and Microsoft excel
- Collaborative problem solving during weekly meetings with study team to optimize recruitment and retention of participants

VOLUNTEER EXPERIENCE

Poverello Free Health Clinic

Syracuse, NY

Founder and Director of Physical Therapy Services

January 2023 – March 2025

- Created a pro-bono physical therapy clinic within a pre-existing free medical clinic
- Treated patients with complex medical histories and many contributing biopsychosocial impairments
- Served as point of contact for all inquiries and issues arising within the physical therapy arm of the clinic

Rahma Free Health Clinic

Syracuse, NY

Co-Founder and Consultant for Physical Therapy Services

February 2025 – June 2025

- Led meetings with physicians to explain the role that physical therapy can have in enhancing their free clinic
- Collaborated with other local physical therapists to create different approaches for patient recruitment
- Advised providers on ideal treatment frequency and session duration for patients receiving pro-bono PT
- Worked to prepare the clinic to see patients by gathering equipment, creating documentation templates, and recruiting clinicians

Little Workers of the Sacred Heart Pro Bono Physical Therapy Clinic

Washington, D.C.

Student Volunteer

October 2020 – October 2021

- Took subjective histories and performed simple objective measures for patients with a variety of conditions
- Created interventions based on subjective and objective data in the patient's chart
- Assisted treating therapist with accurately documenting session

TEACHING EXPERIENCE

Boston Medical Center

Boston, MA

Career Ladder Project – Understanding Clinician Beliefs Towards Chronic Low Back Pain

Feb 2025 - Present

- Collected survey data from clinicians related to their attitudes and beliefs surrounding chronic low back pain
- Synthesized and analyzed survey data using basic statistical techniques and created digestible figures to display results
- Delivered two separate presentations to clinical staff explaining results, clinical relevance, and actionable steps to be taken when considering our beliefs surrounding chronic low back pain
- Acted as point person and clinical expert for questions and discussions surrounding chronic pain and psychologically informed physical therapy

Boston Medical Center

Boston, MA

Clinical Instructor (CI)

March 2025 – May 2025

- Led daily discussions on student directed treatment decisions and other plan of care components to facilitate reflection and clinical independence
- Mentored student on production of evidence-based presentation to be delivered to clinical staff
- Provided constructive feedback on implementation of a wide array of treatment techniques specific to the population being treated
- Consistently taught principles of psychologically informed physical therapy and chronic pain management through an individualized, biopsychosocial lens

Onondaga Physical Therapy

Cicero, NY

New Graduate Clinical Mentor

October 2024 – April 2025

- Conduct weekly mentorship sessions with a new graduate clinician to offer guidance and collaborate on challenging patient cases
- Discuss integration of current evidence as it pertains to the deficits and needs of each patient
- Provide advice on optimizing transition from student to autonomous clinician

Onondaga Physical Therapy

Cicero, NY

Clinical Instructor (CI)

June 2024 – August 2024, January 2025 – March 2025

- Facilitated reflection and professional growth through mentorship sessions and performance evaluations to discuss challenging cases, ethical issues, relevant evidence, and communication skills
- Delivered real time constructive feedback to the student to guide the development of student examination, clinical reasoning, and intervention prescription skills
- Provided direct, hands-on supervision to aide in mastery of physical examination and manual techniques

Upstate Medical University – Department of Physical Therapy

Syracuse, NY

Integrated Standardized Patient Examination (ISPE) CI

March 2024, March 2025

- Participated in multi-component training to more effectively provide appropriate and clinically relevant

feedback to DPT students

- Prioritized most pertinent areas of feedback to be shared with the student after watching live ISPE
- Guided multiple students through reflective discussions regarding their performance on communication and clinical reasoning during the ISPE
- Engaged in a reflection session with a faculty mentor following the student encounter to continue developing my ability to provide valuable feedback to DPT students

Upstate Medical University – Department of Physical Therapy
ISPE Clinical Instructor Mentor

Syracuse, NY
March 2025

- Participated in a training session to improve effectiveness of feedback provided as a mentor to first time ISPE clinical instructors
- Guided first time ISPE clinical instructors through prioritization of feedback areas to be shared with their assigned students following the patient examination
- Facilitated a reflective discussion with the CI following their feedback session with a student to continue development of their own professional mentorship skills

Upstate Medical University – Department of Physical Therapy
Guest Lecturer

Syracuse, NY
June 2023, June 2024

- Created and presented professional lectures tailored to first-year DPT students current level of knowledge regarding pro-bono physical therapy, advocacy, and social responsibility
- Guided students through multiple interactive learning activities during the lectures to maximize knowledge retention
- Fielded questions from students regarding how advocacy and social responsibility will play a role in their career as students and physical therapists

Onondaga Physical Therapy
Shadowing Preceptor for Undergraduate Students

Cicero, NY
January 2024, June 2024

- Hosted undergraduate prospective DPT students for shadowing experiences during standard treatment days
- Educated undergraduate students on a variety of topics related to pursuing a career in physical therapy
- Provided guidance on creating a strong application for acceptance into a DPT program
- Taught basic competencies to undergraduate students regarding the development of the therapeutic alliance between patient and provider

Upstate Medical University – Department of Physical Therapy
Teaching Assistant

Syracuse, NY
June 2023

- Created an assignment for first year DPT students to complete to reinforce their understanding of the intersection between anatomy, pathology, and PT exercise prescription
- Provided individualized feedback to each group of students to enhance the depth and accuracy of their project

RESEARCH EXPERIENCE

APTA Home Health Quarterly Report

Co-Author – Hearing Loss as a Modifiable Risk Factor: Opportunities for Early Detection and Interventions in Home Health Physical Therapy

May 2025

- Conducted thorough literature review on intersection between loneliness and hearing loss, and interventions to address these two topics
- Independently authored multiple sections of the article
- Performed comprehensive full draft article review and edits before submitting for publication

Boston University Chobanian & Avedisian School of Medicine

Boston, MA

Co-Author and Research Assistant – Comparing self-reported use and EHR-documented use of non-pharmacologic treatments in healthcare systems: a multisite observational study

July 2025 – Present

- Performed comprehensive literature review, gathering current evidence to ensure a thorough background
- Draft manuscript iterations through collaborative mentorship with the principal investigator
- Meet bi-weekly with principal investigator to generate new ideas and ensure steady progress

University of Colorado Anschutz School of Medicine – Dept. of Physical Therapy

Denver, CO

Co-Author – Examining loneliness in people with Parkinson disease participating in community-based exercise

June 2023 – May 2025

- Performed comprehensive literature review to search for currently available relevant data on the topic
- Optimized medium-scale excel data to promote more efficient collection for a community-based Parkinson's organization
- Formulated research questions and authored an abstract on this community-based data
- Co-authored manuscript for publication based on preliminary data and available peer reviewed evidence

APTA Combined Sections Meeting (CSM)

Boston, MA

Poster Presenter

February 2024

- Designed a visually appealing and digestible research poster that effectively portrayed the results of our report
- Presented poster findings independently numerous times to a variety of professional conference attendees
- Fielded questions from audience members regarding topics such as research methods, results, limitations, and future directions of research

University of Colorado Anschutz School of Medicine – Dept. of Physical Therapy

Denver, CO

Research Assistant – “SNF RO1” Trial

June 2023 – July 2023

- Participated in a multi-module Canvas course regarding efficacy of high-intensity rehabilitation in a SNF
- Utilized excel and Canvas to send out scheduled reminders to clinicians treating within the trial
- Analyzed therapist notes in RedCap, answering multiple-choice questions to highlight key patient variables

University of Colorado Anschutz School of Medicine – Dept. of Physical Therapy

Denver, CO

Independent Clinical Consultant – “Body Tours” Pilot Project

June 2023 – July 2023

- Performed literature review to determine availability of data relevant to this project
- Provided clinical perspectives to improve the potential application of a project in its infancy
- Critiqued presentation information to improve delivery of the foundational material that defined this project

SCHOLARLY WORK

1. **DiPrinzio D**, Swink L, Brown J, Novak D, Balfany K, Christiansen CL, Manago M. Exploring Loneliness in People with Parkinson's Disease Participating in Community Exercise Classes: A Program Evaluation. 2024 Combined Sections Meeting; 2024 Feb 15-17; Boston, MA.
 - Top poster finalist at CSM 2024 for the APTA's Degenerative Diseases Special Interest Group (SIG)
2. Swink, L. A. PhD, OTR/L; **DiPrinzio, D. DPT**; Brown, J. MBA; Novak, D.; Christiansen, C. L. PhD, PT; Mañago, M. M. PhD, DPT. Examining Loneliness in People With Parkinson Disease Participating in Community-based Exercise. *Journal of Neurologic Physical Therapy*. July 22, 2025
3. Swink, L.A., **DiPrinzio, D.**, Pritchard, K., Brown, J., Novak, D., Christiansen, C.L., Mañago, M. (accepted, 2024, April). Loneliness for People with Parkinson's Disease in Community-based Group Exercise Classes and the Significant Impact on Quality of Life. Poster presentation at INSPIRE American Occupational Therapy Association Annual Conference, Philadelphia, PA.
